

The Great Lakes: A Time of Reckoning

CURRICULUM RESOURCE

Local Grade 9 Science and Geography teachers started using this booklet in their classrooms and were very enthusiastic because they found it to be an excellent resource that meets many expectations in both subject areas.

We engaged Ontario Geography teachers, Science teachers and an assessment and literacy specialist to create Teacher Guides for:

CGC1P: Issues in Canadian Geography, Grade 9 Applied

CGC1D: Issues in Canadian Geography, Grade 9 Academic

CGR4M: The Environment and Resource Management

SNC1P: Science, Grade 9, Applied

SNC1D: Science, Grade 9, Academic

These guides provide all of the strategies your teachers need to effectively use this resource including:

- **Overall and specific expectations covered**
 - **Learning Goals and Success Criteria**
 - **Handouts**
 - **Additional resources**
 - **Discussion topics**
- **A final assessment for each course including a rubric.**

This resource can be used in different learning scenarios:

- **In a blended learning environment where teachers and students are face-to-face but have access to the online module;**
- **In a distance learning environment where teachers and students have scheduled synchronous sessions and students have access to the online module through a virtual learning environment;**
- **In a distance learning environment where the learning is largely asynchronous and students have access to the online module through a virtual learning environment.**

If you are a teacher and would like access to this curriculum resource, please contact Laurie Hazzard at hazzard.courses@gmail.com
